

# Let's Draw a Mom!

1. Have kids turn their paper long and tall

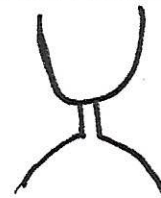

2. In about the middle of the page, draw a large smile shape

3. Under the smile shape, add two lines side by side

4. From each of the lines, draw a hill top to the bottom of the page

5. Add a smile

6. Add a rainbow shape nose

7. Draw two eyes, add eyelashes

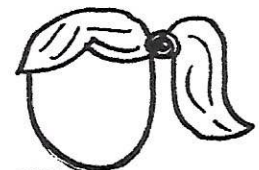

8. Add ears if you want, which would be two c's on each side of the head (one "c" will be backwards) and earrings if needed

9. Add detail to the shirt, with two lines for the arms

10. Add hair, multiple examples are at the bottom of the page, or kids can make it the way they see it on their mom.

(I usually add different hair versions around the board for them to look at and adapt for their own)
