

# VIRTUAL FIELD TRIPS AND EDUCATIONAL SITES

The Nature  
Conservancy

**NATURE  
LAB** Educator  
Resources

The Nature Conservancy and its 550 scientists have created Nature Lab: to help students learn the science behind how nature works for us and how we can help keep it running strong.

Audubon

## Audubon for Kids!

This page aims to bring together activities from across Audubon's national network of environmental educators, including the classroom curriculum *Audubon Adventures*, plus related DIY activities and content from *Audubon's* editors. These activities can be done at home or in a yard. The goal isn't to teach a child how to name and identify bird species, but rather to give them space to explore and feel connected to the natural world. If you're a parent or caretaker, that means you don't need to worry about your own knowledge of birds or plants. All you need to be is a companion to your child's curiosity.
